has been assessed in accordance with the BM TRADA Certification Building Insulation Products Scheme, including in-situ testing in accordance with TRADA Technology Ltd test protocol BIP-001, for use in roof construction and has an in-situ thermal insulation performance equivalent to 210mm of mineral wool.* TRISO SUPER 10+ is registered within the BM TRADA Certification Scheme for Building Insulation Products

*The mineral wool used to establish equivalence conforms to EN 13162, has a declared thermal conductivity of 0.04W/mK and 210mm of this mineral wool has a declared R value of 5.25m²K/W. The thermal performance equivalence is between the two tested roof structures, and includes all the associated heat losses, such as thermal properties of the materials, air leakage and thermal bridging, the structures being designed with realistic and identical air tightness and fractional timber surface area to ensure that the results of the test are representative of commonly used roof structures.

The validity of this certificate is dependent on the adherence to the conditions laid down in the accompanying Q-Mark Schedule. The Q-Mark Schedule is an integral part of this certificate

As a Scheme member the Company agrees to maintain the fabrication and design of its TRISO SUPER 10+ product in accordance with the BM TRADA Certification scheme requirements and to use the Q-Mark in accordance with the Scheme Regulations
